Response to Carl's earlier question today: "Thanks. One clarification would help. The shelter in place order for business tenants came from Dupont, I presume. (no shelter in place for community members)."

Answer: Yes, the shelter in place order was from DuPont. The shelter in place was for the plant facility and not for the community. The nearest resident is over 1 mile away. The sheriff made statements to the public about odor concerns and instructed the citizens to call the sheriff's office if residents smelled mercaptan inside their homes.

Let me know if you need anything else. Susan 214.789.2667
